Rebecca Grant  
Planning Officer  
Planning  
City Development Directorate  
Civic Centre 4  
Much Park Street  
Coventry, CV12PY

30 June 2009

Dear Rebecca,

**The Town and Country Planning (Environmental Impact Assessment) (England and Wales) Regulations 1999 (as amended). Regulation 5 – Request for an EIA Screening Opinion for proposed Energy from Waste Facility at London Road site, Coventry.**

We are writing on behalf of our client Project Transform (a partnership between Coventry City Council, Warwickshire County Council and Solihull Metropolitan Borough Council), to request an Environmental Impact Assessment Screening Opinion for a 350,000 tonne per year Energy from Waste Facility at a site adjacent to the existing Coventry Energy from Waste facility, located on Barr Road off London Road, Coventry.

The proposed development project is of a type listed in Schedule 1 Category 10. (Waste disposal installations for the incineration or chemical treatment of non-hazardous waste with a capacity exceeding 100 tonnes per day), of the Town and Country Planning (Environmental Impact Assessment) (England and Wales) Regulations 1999 and is 'Schedule 1 development' within the meaning of these Regulations. A Screening Opinion is, requested to confirm that this development should be subject to an Environmental Impact Assessment (EIA).

The facility is proposed to treat approximately 350,000 tonnes of waste per year, and as such falls above the threshold set out in Schedule 1, Category 10 of facilities with a capacity exceeding 100 tonnes per day (100 tonnes per day will equate to an annual capacity of approximately 30,000 tonnes per year at 80% availability).

We look forward to receiving your Council's formal Screening Opinion shortly. In the meantime, should you require any clarification or further information, please do not hesitate to contact me on 0207 421 6390

A site location plan is attached.

Yours sincerely
