

Calling all Coventry and Warwickshire businesses...

## Green Week Business Health Check

Green Week is a Coventry city wide partnership bringing together the community, Universities, schools and businesses to promote sustainability and create a green, healthy vibrant city.

**5th –11th March 2018**

Why not complete our Green Week Health check below, run an event to engage staff in sustainable practices and let us know what you are doing through our Facebook page:

# Green Week Business Health Check

**Do you have an environmental/sustainability policy?**

This should set out your priorities and commitments. If you have one is it still current?

**How have you communicated to your staff or others you interact with on sustainability?**

**What are your top sustainability impacts?**

These could be environmental such as waste or energy. Or social such as, wellbeing of staff or impacts on the community.

**Can you identify 5 quick wins that can help you with your key impacts?**

Do you turn lights off when they're not needed? Could you set-up a car share scheme?

**Why not pick a focus topic for each day of green week?**

Carry out a review and/or send out information to your staff.

**Could you create an action plan to build on your quick wins?**

Link this back to your key impacts and decide actions and who may be able to deliver these.

**Assess your supply chain.**

Know what your customers and the downward supply chain are interested in and are doing on sustainability. Do their ambitions match your own?

**Create measurable targets from your action plan, can you report on these and show progress**

**Are there external accreditations you could work towards?**

The Carbon Trust provide certification or go further and introduce ISO140001.

**Are there other areas you could make a positive impact on?**

This could include staff wellbeing and development, or even working with voluntary organisations.
