

Our reference 20123418
21 November 2014

Dear 

Thank you for requesting information about Plots 2100 and 2200 Dolomite Avenue, Coventry Business Park, Coventry CV4 9GZ which the Council received on 27th October 2014. Your request has been considered under the Environmental Information Regulations 2004.

You have requested the following information:

 ***I was wondering whether you could let me know whether this Site has been identified for further inspection under Part 2A? The Site was redeveloped for its current use sometime between 1999 and 2006***

The site forms part of the former Standard Motor Works factory and had been identified through the Council's Contaminated Land Strategy as being potentially contaminated. The site is ranked at number 482 out of 2685 potentially contaminated sites, but is rated as being low risk due to its current use as a business park. It is considered likely that any contamination present would be investigated and remediated through the planning process.

This stance would only change should the Council receive scientifically authoritative information suggesting that the site is contaminated and a risk to human health or the environment.

Please note, under the Re-Use of Public Sector Information 2005 Regulations you are free to use this information for your own use or for the purposes of news reporting.

However, any other type of re-use under the Regulations, for example; publication of the information or circulation to the public, will require permission of the copyright owner and may be subject to terms and conditions. For documents where the copyright does not belong to Coventry City Council you will need to apply separately to the copyright holder.

If you wish to apply to reuse the information you have requested or have any other issues relating to this request please do not hesitate to contact Neil Chaplin in the Environmental Protection team at neil.chaplin@coventry.gov.uk
