Cancer is the toughest fight most of us will ever face. But you don’t have to go through it alone. The Macmillan team is with you every step of the way.

If you have any questions about cancer, need support or just someone to talk to, call free, Monday to Friday 9am-8pm [interpretation service available] on 0808 808 00 00 or visit www.macmillan.org.uk

The Citizens Advice website, www.adviceguide.org.uk offers direct access to practical, reliable and up-to-date information on a wide range of topics and refers to other sources of advice you might want to use.

Macmillan Cancer Support is working with partners across Warwickshire to provide practical, emotional and financial support for people affected by cancer, their families and carers.

When you or someone close to you is diagnosed with cancer, you may have many questions and concerns. We’re here to help.

The experts at our information and support centres can help you get the information you need, in the right format for you. They can listen to your concerns and worries and give you free, confidential support and advice. And although money may not be one of the first things you think about, having cancer can be expensive. If you’re struggling to cope with the cost of cancer or want advice about what support you can get, speak to our specialist benefits advisers.
