Date: 2nd September 2015

Dear

Freedom of Information Act (FOIA) 2000

Thank you for your recent request for information. Your request has been considered under the above Act.

You have requested the following information:

The separate annual spend on each of these public health areas:

*Sexual Health,
Drug misuse - adults,
Alcohol misuse,
Smoking,
Obesity,
Physical activity.*

I am requesting the spend for each of the public health concerns for the coming year 2015/16.

Where the spend is spread across multiple brackets through schemes or initiatives which will, for example, focus on obesity and physical activity, please apportion the correct amount of funding that has gone to each sector's outcomes. Where this is not possible, please spread the cost evenly over each appropriate category.

Response:

Annual Budgets for 2015/16:

Please note that the following budgets include a range of funding sources, not just the Public Health Grant.

Sexual Health - £4,385,777

Drugs Misuse Adults - £2,397,518

The City Council also funds a Drugs/Alcohol Misuse service targeted at Young People. The costs of this service are not included within the cost outlined above.

Alcohol Misuse Adults - £1,993,510

The City Council also funds a Drugs/Alcohol Misuse service targeted at Young People. The costs of this service are not included within the cost outlined above.

Smoking - £1,278,793

Obesity - £730,928

Other Public Health services funded by the City Council also include elements of weight management and physical activity advice including Health Checks, Make Every Contact Count and the School Nursing service (including the National Child Measurement Programme). However, it is not possible to apportion a cost to the Obesity/Physical Activity elements of these services and therefore these costs have been excluded.

Physical activity - £1,078,403

Other Public Health services funded by the City Council also include elements of weight management and physical activity advice including Health Checks, Make Every Contact Count and the School Nursing service (including the National Child Measurement Programme). However, it is not possible to apportion a cost to the Obesity/Physical Activity elements of these services and therefore these costs have been excluded.

You are free to use this information for your own purposes. If you wish to use the information for other purposes, you will need to contact us. If you are unhappy with the outcome or handling of your request you should write to us within 40 working days of the date of this letter:
