Dear 

Freedom of Information Act 2000

Thank you for requesting information about Parkgate Road, Coventry which the Council received on 15 February 2013. Your request has been considered under the Freedom of Information Act 2000.

You have requested the following information;

1. Dates of all safety inspections undertaken on the carriageway between 1st February 2011 and 1st February 2013

Please see Appendix 1 – inspection card

2. Details of all carriageway defects identified during safety inspections between 1st February 2011 and 1st February 2013

Please see Appendix 2 – Jobs List (14.02.2011 – 16.02.2013)

3. Details of how carriageway safety inspections are undertaken, including whether walked or driven, the speed of the inspection vehicle and the number of persons in the vehicle.

Walked annually.

4. The intended frequency of carriageway safety inspections.

Historically walked annually – a recent review means this road will now also be driven 3 monthly

5. Details of all complaints and/or enquiries relating to the carriageway, received between 1st February 2011 and 1st February 2013.

Please see Appendix 3 – Enquiries list (14.02.2011 – 16.02.2013).

6. The hierarchy classification

4A Link Road

7. The road/section number.

Unclassified Road 270014

8. The defect intervention criteria adopted in relation to the identification of all categories of carriageway potholes

'Recognising that the public are concerned mainly about visual defects rather than network strength, carriageway defects over 40mm deep and footway defects over 20mm will be dealt with within timescale set out in 11.1 of the Highways Maintenance Strategy. Areas should be treated before they reach a UKPMS Coarse Visual Inspection score of 70. All carriageway surfaces should have a skid resistance at or above Investigatory level, a level at which insufficient resistance is available to adequately slow progress of vehicles under braking.'

9. The time period(s) adopted between identification and repair (temporary and permanent) of all categories of carriageway defects.

It has been established that the Council does not hold this information, and are informing you as required per Section 1(1) (a) of the Act:

"Any person making a request for information to a public authority is entitled to be informed in writing by the public authority whether it holds information of the description specified in the request".

10. Whether or not the authority has formally adopted all or part of the standards contained within the national code of practice for highways maintenance management.

Coventry has adopted many of the standards and principles within the Well-Maintained Highways Code of Practice, but there is further work to do in terms of all its recommendations, particularly in the field of Highways Asset Management.

You will note that certain information within the reports have been redacted (removed).

This information redacted purely relates to the identities of individuals involved in this process.

This has been done as the Council considers that this information meets the definition for personal data set out in Section 1(1) of the Data Protection Act 1998 ("DPA") as:

"data which relate to a living individual who can be identified - (a) from those data, or (b) from those data and other information which is in the possession of, or is likely to come into the possession of, the data controller and includes any expression of opinion about the individual and any indication of the intentions of the data controller or any other person in respect of the individual"

The Council thus considers that the requested information is caught by the exemption to disclosure contained in Section 40 (2) of the Act and the related first condition of Section 40 (3).

To explain further, a disclosure made under the provisions of the Act is judged to be a disclosure to the wider world and here the Council must consider disclosure of personal information in line with the provisions of the DPA.

In this instance it is judged that the personal information relating to junior staff and third parties such as members of the public involved in the process is being processed by the Council for highway inspection duties and not for any wider disclosure purposes.

Individuals involved, with the exception of named senior officers contained in the council's standard letter text would also have no reasonable expectation that their details would be disclosed to the world-at-large.

Any disclosure of this information would be judged in this instance to breach DPA principles, notably the first principle – that of fair and lawful processing and the second principle-that of processing for specified and not-incompatible purposes. Details have thus been redacted (removed) in this instance.

Please note that most of the information that you request is owned by the Coventry City Council and subject to copyright protection. Under the Re-Use of Public Sector Information 2005 Regulations you are free to use this information for your own use or for the purposes of news reporting. However, any other type of re-use under the Regulations, for example; publication of the information or circulation to the public, will require permission of the copyright owner and may be subject to terms and conditions. For documents where the copyright does not belong to Coventry City Council you will need to apply separately to the copyright holder.

If you wish to apply to reuse the information you have requested or have any other issues relating to this request please do not hesitate to contact me.

I hope you feel that our response meets your request. However you have a right to make representations about the outcome or handling of your request – in the first instance this must be made in writing within 40 working days of the date of this letter, to the Council's Information Governance Team at:

Council House, Room 21a
Lower Ground Floor
Earl Street, Coventry.
CV1 5RR
infogov@coventry.gov.uk

If you have done the above but are still dissatisfied, you then have the right to apply directly to the Information Commissioner for a decision. The Information Commissioner can be contacted at:

Information Commissioner's Office
Wycliffe House
Water Lane
Wilmslow
Cheshire
SK9 5AF

Yours sincerely

Bernie Robinson (Mrs)
