## **DECLARATION OF REDUCED OPERATION**

### **Pollution Prevention and Control Act, 1999 Environmental Permitting (England and Wales) Regulations 2010**

#### **When to use this form**

If your installation is for a period of not less than 12 months

- a) being mothballed<sup>1</sup>, or
- b) temporarily operating (or is going to operate) at reduced capacity, below the threshold requiring a permit,

you can use this form to declare that this is the case and may be eligible for reduced annual subsistence charges. This is an alternative to surrendering your permit and having to make a new application if production increases or restarts.

#### **Restrictions**

Eligibility for reduced charges is limited to a 24-month period from the date of the Council's letter of acceptance and is dependent on your local authority regulator being satisfied that paragraphs a) or b) above are satisfied.

#### **Next steps**

When responding to this declaration, your local authority regulator may either

- i) write to you confirming reduced charges. In doing so it will explain what you have to do if circumstances change, and may also vary your permit to require you to provide information to them; or
- ii) ask you for more information which shows the basis of your declaration.

#### **If you need help and advice**

We have made the application form as straightforward as possible, but please get in touch with us at the local authority address given at the end of this form if you need any advice on how to set out the information we need.

<sup>1</sup> ie Its activity will temporarily cease to be carried on but the equipment necessary to carry on that activity is maintained to ensure that operation may be restored at a future date
