Your Ref: wk/ 217007004

01 February 2018

Dear Sir / Madam,

The Environmental Permitting (England and Wales) Regulations 2010
Re: Permit to operate a Prescribed Process; Permit Reference PPC/205
Aggregate Industries, Coventry Concrete Plant, Stonebrook Way, Blackburn Road
Industrial Estate, Coventry, CV6 6LN

I refer to the above and enclose your Permit to operate the installation as described, and in accordance with the conditions to which it is subject. You are advised to read all of the conditions carefully and ensure that you understand exactly what is required.

Now that your permit is issued you will require regular inspections. At these inspections you will be required to demonstrate compliance with the permit conditions. The inspecting officer will assess your level of compliance and this will be used to determine your risk rating score and therefore your subsistence fee and frequency of inspections. You will be due an inspection for the year 2017-18 and this will take place before the 31st March 2019.

If you have any questions or need to discuss anything then please do not hesitate to contact me on the phone number at the head of this letter.

Yours sincerely

Steve Dewar
Environmental Health Officer
