

In numbers: organisations who have benefited from the Green Business Programme

In July 2018, the Coventry and Warwickshire Green Business Programme surveyed all the small to medium sized local organisations who have either received grants or free energy audits through the ERDF funded programme. They were asked their opinions on how the programme has benefited them as an organisation and what energy efficiencies have been made within their business operations. The facts and figures from the survey have been rounded up below.

If you are you a small to medium sized organisation in Coventry and Warwickshire, then you may also be eligible for FREE Energy Efficiency audits and Low Carbon Grants like the 70 organisations we have helped to date. To find out how we can reduce your carbon footprint and save you energy costs contact us via email greenbusiness@coventry.gov.uk or call the team on 024 7678 6901.
