

## **INTRODUCTION**

The information in this document is intended to help you in applying for and renewing a hackney carriage or private hire vehicle licence. Please read it before filling in an application form and retain it for future reference. A new copy (including any changes) will be given to you each time you apply for a licence, you are advised to read it.

The main reason councils are given the responsibility of licensing both the hackney carriage and private hire trades is to protect the public. The procedures you are required to follow exist to ensure that your vehicle is both suitable and safe to be licensed as a hackney carriage or private hire vehicle.

You should be aware that you cannot legally use a hackney carriage or private hire vehicle for hire and reward until you have completed all the vehicle licensing procedures and the vehicle has been granted a licence and identity plates. It is an offence to use a vehicle for hire or reward without first obtaining the correct hackney carriage or private hire vehicle licence. You also cannot legally drive a Coventry licensed hackney carriage for hire and reward, or a Coventry licensed private hire vehicle, for any reason, including for hire and reward, until you have been issued with a driver's licence and identification badge issued by this authority. For information on applying for a licence to drive a hackney carriage and/or private hire vehicle please ask for the "Driver Information Document 044".

**NOTE:-**

- If you are selling your vehicle to a person/company who will not be using it as a hackney carriage or private hire vehicle in Coventry you may wish to consider handing in the plate, surrendering the vehicle licence and requesting a refund for the remaining month(s) on the licence before selling the vehicle. See 'Surrendering a Plate/Licence and Requesting a Refund' in Contents.
- If the licensed proprietor is unavailable (e.g. incapacitated, deceased, etc) or the company is no longer in existence the above procedure can be done by a close relative or representative. However, the Taxi Licensing Office will need to be satisfied that the person/representative is a close relative or legitimate representative of the proprietor/company. To obtain a refund additional procedures will be required. See 'Surrendering a Plate/Licence and Requesting a Refund' in Contents.

**Incoming (new) proprietor's/company's procedure**

- 5.7 When all the procedures have been completed, a licence certificate will be issued to you/the company with your/the company's name and address on it. The expiry date of this licence will remain the same as the expiry date on the rear plate of the vehicle.

### **SURRENDERING A PLATE/LICENCE AND REQUESTING A REFUND**

You may hand in a plate, surrender the vehicle licence certificate and request a refund for the remaining month(s) on the licence. This is similar to the refund system available for Road Tax from the DVLA. If the plate and/or licence certificate is not available you will need to provide a satisfactory explanation and prove you are the licensee. For the refund amount see 'Fees, Charges and Refunds' in Contents.

### TYPES OF VEHICLE LICENCE

#### Private Hire Vehicles

Before a council can grant a licence to a vehicle for private hire use it must be satisfied that the vehicle the council intends to licence is of a suitable type, size, and design. It must not be of such a design and appearance as to lead any person to believe the vehicle is a hackney carriage. The vehicle must be in a suitable mechanical condition and also safe, comfortable and in excellent condition. The council must also be satisfied that a policy of insurance is in force, which relates to the use of the vehicle.

In Coventry private hire vehicles are licensed up to a maximum of 8 passengers depending on the type and size of vehicle.

A council cannot refuse a private hire vehicle licence just for the purpose of limiting the number of vehicles.

Private hire vehicles in Coventry display yellow stickers on the front doors, the rear door windows and also have a plate on the rear of the vehicle.

This type of vehicle can only take passengers that have booked in advance with a licensed operator. It is an offence in law to pick a passenger up off the street that has not ordered the vehicle in advance, this is commonly called a "flag down" and can result in prosecution at the Magistrates Court. A private hire vehicle cannot wait for passengers on ranks. They can only wait for the passenger when they have arrived at the place the passenger arranged to be collected from.

#### Executive Hire Private Hire Vehicles & Private Hire Vehicles used exclusively for Chauffeur Work

This is a private hire vehicle as above, but the proprietor will have been granted 'Executive Hire' exemptions, by the Taxi Licensing Office, from the requirement to display the rear licence plate and door stickers on the outside of the vehicle. However, the licence plate would still be required to be kept inside the vehicle. In addition, the driver of the vehicle may have been granted exemption from wearing an identity badge.

Executive Hire Private Hire Vehicles & Private Hire Vehicles used exclusively for Chauffeur Work are not required to have a window minimum light transmittance apart from the legal Police requirement.

You must apply in writing by completing Private Hire plate & badge exemption application form, to the Taxi Licensing Office, to request 'Executive Hire' exemptions from displaying the licence plate and stickers.

To be granted 'Executive Hire' exemptions -

1. the vehicle must be a recognised prestige/executive model or specification of model or is a recognised vintage or classic model (*e.g. Rolls Royce, Bentley, Jaguar, Daimler, Cadillac and certain models of BMW/Mercedes. A standard model of vehicle would not normally be acceptable*); and
2. and/or the vehicle must be used solely for:
  - a) contract or account work with businesses/organisations; or
  - b) one-off bookings for special occasions such as birthdays, anniversaries or other similar occasions requiring a chauffeur-driven services; and
  - c) the vehicle must not be fitted with a databox, taximeter or two-way radio.

N.B. the executive vehicle cannot be used for school contracts

#### Hackney Carriage Vehicles

A hackney carriage must be of such design or appearance or bear such distinguishing marks to clearly identify it as a hackney carriage. In Coventry, this is a vehicle that has been purpose built for the job. The vehicle must be in a suitable mechanical condition and also safe, comfortable and in excellent condition. The council must also be satisfied that a policy of insurance is in force, which relates to the use of the vehicle.

A hackney carriage vehicle can take bookings in advance and it can also drive around the streets to find passengers who wish to “flag down” the hackney carriage. A hackney carriage is also allowed to use “ranks” on which it can stand and wait for passengers. The rank is a temporary waiting point marked on the road that only allows the hackney carriage to wait temporarily, it is not a parking space and a hackney carriage must never be left unattended when on a rank.

## **TYPES OF VEHICLE SUITABLE FOR LICENSING IN COVENTRY**

### **PRIVATE HIRE**

As manufacturers make changes to the specification of their vehicles it has become necessary to ensure the suitability of each vehicle before a licence is granted. Therefore, each vehicle presented for a first grant application will need to be checked by the Taxi Licensing Office for suitability under the City Council's policy on the Conditions of Fitness for Private Hire Vehicles. The person presenting the vehicle will be issued with a 'Private Hire Vehicle Type Compliance/Non-Compliance Certificate' stating that the vehicle complies or fails to comply with policy. A vehicle will be considered suitable if it meets the Conditions of Fitness for Private Hire Vehicles, in addition to other requirements as set out in this document e.g. the vehicle inspection for safety and condition, which is in addition to the above check. It is at your own risk if you purchase and/or put the vehicle through the inspection before the above check and the vehicle fails to comply. See 'A Guide To Vehicle Requirements', 'Vehicle Age Policy & Emissions' and 'Inspections' in contents.

**Before committing yourself to buying or leasing a vehicle** you are strongly advised to get the actual vehicle you wish to be licensed checked and approved by making an appointment with the Taxi Licensing Office. If the vehicle you wish to licence is not available, and you want to know if it will be suitable for licensing, you may choose one or both of the following options:

Before the vehicle you buy or lease is licensed, it will need to be checked by the Taxi Licensing Office to make sure it is suitable. Therefore, you must be certain that the vehicle you buy is identical to the one originally checked, if not it may not be licensed. Please be aware that vehicles of the same make/model/year may not be identical.

each vehicle presented for a first grant application will be subjected to a full assessment of its compliance with current Council requirements (e.g. size, number of doors, ease of access, ease of exit, etc). **You are strongly advised not to buy a vehicle simply because it appears on this list or because you have seen one licensed, it should be checked and approved first.**

The Taxi Licensing Office also licenses Extended Limousines (8 passenger seats and under) and Novelty Vehicles (including fire engines). The Conditions of Licence for these vehicles is at page 34.

If you have any doubts contact the Taxi Licensing Office before you buy or lease the vehicle. Please also read the section on the Vehicle Age Policy & Emissions, A Guide To Vehicle Requirements and Inspections.

### Vehicles required to be licensed

The Licensing Office is required to licence any vehicle capable of carrying 9 persons or less (8 passengers + 1 driver) which is being used to carry passengers or goods for hire or reward. It is an offence to use a vehicle for that purpose that does not have a licence from the council.

## **INSPECTIONS**

(For additional/detailed information please refer to the "Vehicle Inspection Manual 021" available on line at [www.coventry.gov.uk/taxilicensing](http://www.coventry.gov.uk/taxilicensing) or from the Taxi Licensing Office).

### **General Information**

If your vehicle has not been licensed in Coventry before or it has been licensed but the licence has expired or you have applied to renew the vehicle licence it will need to pass an inspection before being issued a licence (the vehicle may also need to be checked first for compliance, please see "Types of Vehicle Suitable For Licensing In Coventry" in Contents). If your vehicle is over 5 years old for HC, or 3 years old for PH, (see "Vehicle Age Policy & Emissions" in Contents), it will need to pass an additional inspection half way through the licence (6 month inspection). If a licensed vehicle reaches the stated age within 6 months of the commencement date of the licence the vehicle will require an inspection half way through the licence and at renewal.

Also, if your vehicle is over 10 years old for HC, or 6 years old for PH, and fails an inspection, it may be refused a licence or its licence may be revoked. The Taxi Licensing Office may also carry out additional checks and inspections, on your vehicle, as part of an enforcement programme.

### **Suspension and Rectification notices**

If, during an inspection or spot check, your vehicle fails on a serious/important item it is likely that the licence will be suspended, and a suspension notice issued, plus the vehicle must not work. If your vehicle fails during a spot check on a less serious/important item a rectification notice may be issued. Please refer to the suspension/rectification notices and any other documents given to you on what you need to do. When the matter has been put right the vehicle will be need to be re-inspected/checked and then the suspension or rectification notice can be cancelled by the Taxi Licensing Office.

### **What is Inspected**

The vehicle inspection is not just a MOT test. In addition to areas covered by the MOT test (i.e. aspects of safety), the inspection covers additional areas (i.e. vehicle reliability, general condition, equipment and vehicle alterations). It is possible for a vehicle to pass the MOT parts of the inspection but fail other parts.

The chart below lists different aspects of the inspection

<b>Aspects of Coventry City Council's Vehicle Inspection</b> (incorporating a MOT test) Please refer to the "Vehicle Inspection Manual 021" available on line at <a href="http://www.coventry.gov.uk/taxilicensing">www.coventry.gov.uk/taxilicensing</a> or from the Taxi Licensing Office.	<b>Result if fault is found</b>	
	MOT test	Council part of the inspection
1 All MOT testable items, to the standard set for the MOT test.	Fail	Fail
2 All MOT testable items, to a higher standard than set for the MOT test, based on the fact that most licensed vehicles are likely to travel more than 5 times the average distance covered by a private car.	N/A	Fail

### Preparing the Vehicle

**When bringing a vehicle in for an inspection, you should make sure that it is fully prepared and in a condition to pass.** For information on what is inspected and the standards applied during the inspection please refer to the "Vehicle Inspection Manual 021" available on line at [www.coventry.gov.uk/taxilicensing](http://www.coventry.gov.uk/taxilicensing) or from the Taxi Licensing Office. The inspection is a check of the vehicle's suitability to be licensed. **It is not a maintenance check to find out what is wrong with the vehicle. If no attempt has been made to prepare the vehicle, the inspection may be stopped and the vehicle licence suspended.** You are advised to read the City Council's age policy & emissions.

The vehicle testers may fail, or be unable to complete parts of the inspection for the following reasons:-

- Parts of the vehicle are dangerous to check.
- Because of a fault, other parts would be dangerous to check.
- Parts cannot be reliably checked because of dirt or oil contamination.
- Because of the condition of the vehicle, the time allocated for the inspection is exceeded.

If the vehicle does not meet the required standard, or parts are not checked for any of the above reasons, the vehicle will have failed the inspection.

### Vehicle standards/requirements/condition

For information on what is inspected and the standards/requirements/condition please refer to the "Vehicle Inspection Manual 021" available on line at [www.coventry.gov.uk/taxilicensing](http://www.coventry.gov.uk/taxilicensing) or from the Taxi Licensing Office.

Below is some general advice but you are strongly advised to prepare your vehicle, or ask the repair/service garage to prepare your vehicle, to the requirements set out in the Vehicle Inspection Manual 021.

1. It is considered reasonable that at the time of inspection the vehicle should be 'at its best' and in 'exceptional condition'.
2. The outside of the vehicle must be clean.
3. The engine bay and underside of the vehicle should be clean enough to enable the inspector to check the vehicle. If you intend to clean the engine bay and underside of the vehicle you should follow the vehicle manufacturer's instructions.

4. The vehicle should be "as manufactured" and any repair should be to the same specification, as applied by the manufacturer, when the vehicle came off the production line unless written approval has been obtained from the Taxi Licensing Office.
5. Advertisements are not allowed on/in Private Hire Vehicles. Advertisements on/in Hackney Carriage Vehicles must have been approved by the Taxi Licensing Office, be complete and in good condition.
6. Only approved signs/stickers/notices can be displayed inside/outside of the vehicle.
7. If the vehicle is currently licensed, the licence stickers must be in good order and the licence plate must be properly displayed and mechanically secured (e.g. screws) on the outside and rear of the vehicle. Magnetic/Velcro/tape/glue fixings are not acceptable. The plate must not be tucked up behind the number plate or otherwise obscured.
8. Seat covers are not acceptable unless prior written approval has been obtained from the Taxi Licensing Office. Do not buy, or have fitted, seat covers before obtaining approval. Approval is more likely to be given if the proposed covers will be close fitting, secure, neat, clean, in good order, of an appropriate colour and would not obstruct the adjustment/movement of the seats or seat belts and are intended to protect the seats and not to cover up damage to the seats. Also, the proposed covers must not cover up any aid for visually impaired passengers (e.g. reflective yellow patches). Text, logos or advertisements are not allowed on seat covers.
9. Roof racks/boxes are not acceptable unless prior written approval has been obtained from the Taxi Licensing Office.
10. Towbars are not acceptable unless prior written approval has been obtained from the Taxi Licensing Office. The vehicle will fail an inspection if a towbar is fitted and approval has not been obtained. The vehicle will also fail an inspection if a towbar has been fitted and removed and in the opinion of the examiner the safety/integrity of the vehicle has been compromised.
11. A serviceable fire extinguisher must be in the vehicle, of a type to meet the requirements of BS EN3 (or BS5423), normally 2Ltr Foam or 1Kg Powder. For information on what is acceptable for a fire extinguisher please refer to the "Vehicle Inspection Manual 021" available on line at [www.coventry.gov.uk/taxilicensing](http://www.coventry.gov.uk/taxilicensing) or from the Taxi Licensing Office. The extinguisher must be clearly marked with the registration number of the vehicle.
12. A serviceable CE approved emergency first aid kit must be in the vehicle. For information on what is acceptable for a first aid kit please refer to the "Vehicle Inspection Manual 021" available on line at [www.coventry.gov.uk/taxilicensing](http://www.coventry.gov.uk/taxilicensing) or from the Taxi Licensing Office. The kit must be clearly marked with the registration number of the vehicle.
13. Stripes/coach lines are not acceptable unless of a close match to those applied to the vehicle when manufactured.
14. The vehicle being inspected will be transporting people for which payment is made. People should expect the vehicle to be safe, clean, suitable, good to look at and travel in.
15. You may wish to ask yourself - would I buy this vehicle from a dealer in its current condition without having any of its faults rectified? If the answer is 'no' it is unlikely the vehicle is in the required condition.

### **Booking an Inspection**

Inspections can only be booked online at

[https://myaccount.coventry.gov.uk/en/service/book\\_a\\_vehicle\\_inspection\\_or\\_MOT](https://myaccount.coventry.gov.uk/en/service/book_a_vehicle_inspection_or_MOT)

If you book the wrong inspection (e.g. a full inspection instead of a 10-day re-inspection) it is not possible to have a refund. If you book an unlicensed vehicle in for an inspection before having it approved for licensing (see 'Types of Vehicle Suitable for Licensing in Coventry' in Contents) and it is subsequently not approved a licence will not be granted and the fee(s) for the inspection(s) will not be refunded. The inspection is to check vehicle safety and condition; it is not a check to establish that it is a suitable type.

Appointments can be used up quickly so please do not leave it too late. You are very unlikely to get an appointment within 1 week of booking and at busy times of the year it may be 2 weeks before you can get an appointment. For renewal and 6 month inspections you are advised to book an inspection well in advance (no earlier than 8 weeks) of the licence expiry date/6-month inspection expiry date. The inspection should take place between 2 and 4 weeks, but no earlier than 4 weeks (28 days), before the licence expiry date/6-month inspection expiry date. It is your responsibility to ensure that your vehicle has a valid MOT certificate while keeping within the above procedures. The inspection fee covers one inspection appointment. If your vehicle fails the inspection, it will require another inspection appointment at an additional fee. Please see "Fees, Charges and Refunds" in Contents.

Inspections are carried out at the Council's Transport Services Section, Whitley Depot, 259 London Road, Coventry CV3 4AR (next door to the Taxi Licensing Office). A standard MOT test is not approved for licensing purposes and may be unreliable as a pre-inspection check. Therefore, please do not arrange a standard MOT test at the Council's Transport Services Section.

### **Changing or Cancelling an Inspection**

If you wish to change or cancel your inspection appointment you should refer to the following chart then you need to give to clear full days before your appointment.

### **Arriving for the Inspection**

You are advised to arrive at least 10 minutes before your appointment. If you are late for your inspection appointment the inspection cannot proceed as the time remaining is likely to be inadequate. Bring your appointment slip and current MOT certificate. Please park in the parking bays reserved for Inspections/MOT's. You should then go to the Transport Services reception counter, which is opposite to the Taxi Licensing Office reception, to register your arrival and have your appointment slip stamped.

You may be asked to assist with the inspection by operating the lights, wipers, horn, pressing pedals, starting/stopping the engine, rocking the steering wheel etc, including when the vehicle is high on the ramp. You are not obliged to assist and if you do not want to assist please inform the Transport Services staff when you arrive for the inspection. If you are kept waiting because a previous inspection has overrun please be patient as this is rare but at times unavoidable.

### **PLEASE NOTE**

- If you cancel the inspection appointment within the time stated above the fee will be refunded.
- If you cancel the inspection appointment after the time stated above no refund will be given.
- If you change the inspection appointment within the time stated above no additional charge will be made.
- If you change the inspection appointment after the time stated above, or do not attend the inspection appointment, or miss your appointment time, no refund will be given and

you will be required to pay the re-booking fee before a new appointment can be made.

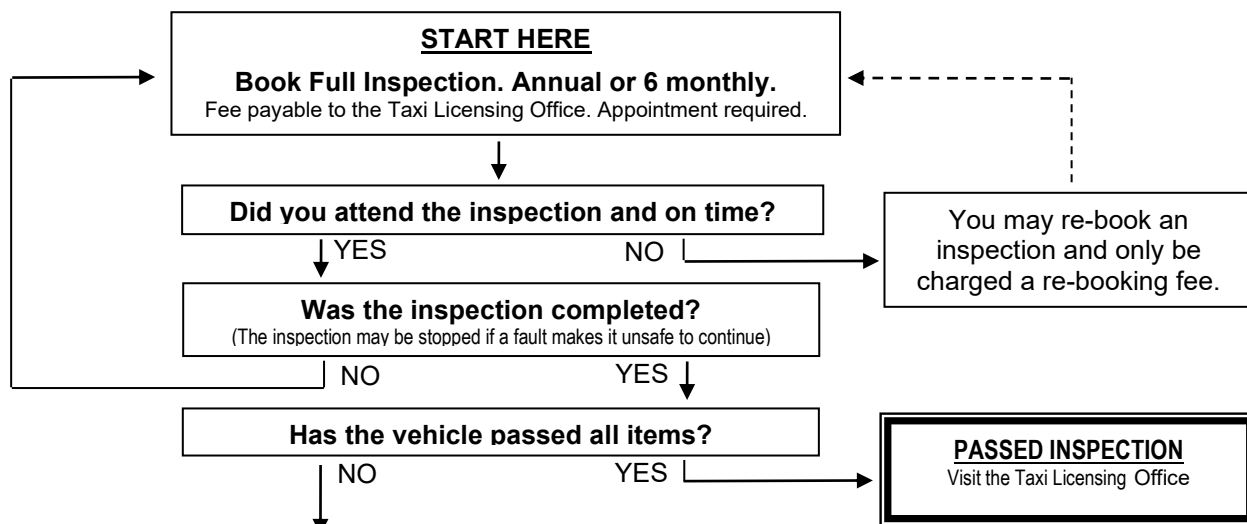

- If in the opinion of the tester, parts of the vehicle cannot be inspected or the tester stops the inspection, no refund will be given and you will be required to pay the full fee before a new appointment can be made.

**During/After the Inspection**

The charts on the following pages shows the inspection system. Unfortunately, the charts are complex; this is necessary to meet the requirements of the 'Driving Vehicle Standards Agency" (DVSA), the agency that controls the MOT test. However, if you follow the charts selecting the relevant answers the charts should assist you through the inspection system (information and/or times in the charts may change, please contact the Taxi Licensing Office for updates).

If your vehicle fails an inspection you should immediately visit the Taxi Licensing Office for advice on what to do next. To pass a re-examination (retest) all of the items listed on the 'Refusal of an MOT Test certificate VT30' and the 'Full Vehicle Inspection Booking/Record 018' must be repaired. If the vehicle licence is current and the vehicle has failed on one or more MOT items, it is likely the licence will have been suspended (you must not use the vehicle for hire or reward). When the MOT item(s) have passed the inspection the suspension may be lifted. When the vehicle passes on all items you must immediately take the inspection sheet to the Taxi Licensing Office. There may be occasions where the vehicle's MOT certificate has expired and the HC or PH vehicle licence is current. In this case the vehicle should not be used until it has been issued an MOT certificate.

If you do not agree with the items listed on a 'Refusal of an MOT Test Certificate' VT30, you may appeal to DVSA. Please refer to the information on the back of the VT30 document issue at the end of the MOT test.

## Other types of vehicle Inspection

### NOTE

A vehicle, which, in the opinion of the inspection officer, is considered dangerous, or a hazard to others will be suspended until the vehicle is presented with the fault(s) corrected. A vehicle which, in the opinion of the inspection officer, fails to conform to the council's standards will be issued a rectification notice giving the proprietor a period of time to correct the matter. If the vehicle has not been presented within the period specified with the matter corrected the vehicle licence may be suspended.

### Spot Inspection

A 'Spot' inspection can be given to any vehicle that is currently licensed. The inspection is the same as the normal inspection. Any Licensing and Enforcement Officer can request your vehicle to be made available for a 'Spot' inspection. You will be sent or given an appointment form asking you to attend at a set time and on a set day. If this is not convenient it can normally be changed. You will not be charged for a spot inspection however, if your vehicle fails, you will be required to pay for any clearance or further inspections.

Under the vehicle age policy & emissions, if your vehicle is over a certain age, and fails a spot inspection the licence could be revoked and the vehicle refused any future licence.

### Joint/Multi Agency Spot Inspection

Several agencies may be present at a "Joint Agency" inspection, e.g. Coventry Taxi Licensing Office, Police, Vehicle Inspectorate (Department for Transport), Inland Revenue, Customs and Excise, the Benefits Agency and other council departments such as Council Tax and Housing Benefits.

A Licensing and Enforcement Officer or Police Officer can require your vehicle to be made available for a Joint/Multi Agency spot inspection. A Licensing and Enforcement Officer may send you a letter of appointment asking you to present your vehicle for inspection. A Police Officer may stop your vehicle and require you to present your vehicle for inspection.

### Licensing and Enforcement Officer Spot Inspections

These can take place on the roadside or at the Taxi Licensing Office. They are not normally as detailed as the other types of inspection and can range from a check of the general condition to a full inspection.

## METERS

Hackney carriage vehicles must have a calendar controlled meter, approved by the Taxi Licensing Office, fitted by law and cannot be used without one. A licence will not be issued to a hackney carriage unless an approved meter is fitted, programmed, calibrated, tested and found to be accurate and issued with a meter test certificate. If you own a hackney carriage and the meter is not working correctly, you should inform the Taxi Licensing Office, who will arrange a meter test appointment for you.

Private hire vehicles do not have to have meters fitted and can be used without a meter, but if your vehicle is fitted with a meter, arrangements must be made for the meter to be tested. You cannot use the meter if it has not been programmed, calibrated, tested and found to be accurate and issued with a meter test certificate.

Any vehicle with a meter that is inaccurate or not working correctly can be suspended from use until tested, found to be accurate and issued a new certificate of accuracy.

It is up to the proprietor of the vehicle to find the agent for the make and model of meter in their vehicle and arrange for it to be programmed with the correct rate for Coventry and calibrated. The Taxi Office staff can only test a meter after it has been correctly programmed and calibrated.

All meters must be programmed, calibrated and issued with a 'Meter Programming Certificate' or Meter Test Certificate', dated on or after the introduction of the current fare structure. The certificate must be displayed in the vehicle. The Taxi Licensing Office informs proprietors in advance of a change in fares and the location and date & times for the programming and testing of meters.

### **ACCIDENT DATA RECORDING DEVICES (ADRD), DASHCAMS**

Proprietors of licensed hackney carriage and private hire vehicles in Coventry are permitted to install an Accident Data Recording Device (ADRD) into their vehicles. An ADRD is a journey recorder which is concealed discretely in the front or rear of a vehicle. It records digitally onto a media card. The card will hold data which consists of speed, braking and collision G-force.

#### Personal Data

No personal data i.e., words or images are permitted to be recorded either inside or outside the vehicle.

#### Fitting an ADRD

Such devices should be fitted and maintained in accordance with the guidelines provided by the ADRD supplier and those in this document. It should take account of,

1. Any requirements in respect of the Motor Vehicle Construction and Use Regulation;
2. Safety requirements, including the manufacturer's installation instructions;
3. Passenger and driver safety. The equipment must be designed and installed in such a way as to present no danger to passengers or the driver;
4. The risk of interference to any existing safety, electrical, computers, navigation, satellite or radio system in the vehicle.
5. The data controller must be registered with the Information Commissioners Office (ICO).

#### In case of Collision

Immediately or as soon as is practicable, after a road traffic collision has occurred, the driver or proprietor should report the accident to the insurance company or appropriate person(s).

#### Your responsibility to the Taxi Licensing Office

Please note, that as part of your licensing requirement, you have a legal obligation to inform the Taxi Licensing Office, in writing, if the accident damage is of the type defined in the box below.

**Sections 50(3) Local Government (Miscellaneous Provisions) Act 1976 states,**

If a licensed vehicle is damaged, and that damage affects the safety, performance and appearance of the licensed vehicle or the comfort or convenience of persons carried then the accident **MUST** be reported in writing within 72 hours of the accident.

If you are unsure of the meaning in the above box, please contact the Taxi Licensing Office for advice.

#### Information Commissioners Officer (ICO)

The ICO is the office responsible for regulating matters relating to Dashcams in licensed vehicles. Responsibility for informing the ICO applies to a specified company, organisation or individual vehicle owner (data controller). The reason for this is that information captured on dashcams is regarded as personal data.

The data controller is required to register and renew yearly with the ICO if they have a dashcam system installed into a licensed vehicle. Documentary proof is required showing that this has occurred and must be produced to the Taxi Licensing Office within 30 days of the initial installation and on annual renewal. Regardless of who processes the dashcam footage the data controller remains legally responsible. Drivers need to register and pay a fee with the ICO if any dashcam device is fitted, as the driver will be the controller of the personal data collected.

#### **N.B. See CCTV cameras for full details regarding registering and use with the ICO.**

Requests may be made by the Police or other enforcement agencies entitled to access dashcam footage. The request should be made in writing stating the legislation that permits access and the reason why the disclosure is required.

Requests may be made by members of the public to access dashcam footage if they have been the subject of a recording. A charge of £10 can be made and the request must be in writing. A photograph of the person making the request must be provided as evidence that they are the person shown on the image

#### **A GUIDE FOR THE USE OF CLOSE CIRCUIT TELEVISION) IN HACKNEY CARRIAGE AND PRIVATE HIRE VEHICLES**

The Information Commissioner's Office (ICO) and Surveillance Commissioner have given the strongest possible advice that mandatory CCTV is very difficult for licensing authorities to justify. As such, CCTV is not required by the Taxi Licensing Office, however this policy outlines the requirements for those wishing to voluntarily install CCTV.

These guidelines set out to ensure that CCTV systems installed in Hackney Carriage and Private Hire Vehicles licensed by Coventry City Council are properly managed whilst being used to prevent and detect crime; and enhance the health, safety and security of both Hackney Carriage and Private Hire Vehicles, drivers and passengers. Vehicle owners, who may also be the driver and/or operator, installing CCTV systems must fully comply with the requirements set out in these guidelines.

For the purposes of these guidelines the term "CCTV system" will include any

electronic recording device attached to the inside of vehicle having the technical capability of capturing and retaining visual images and audio recording from inside or external to the vehicle. In addition to the standard CCTV camera system these may include for example, such devices as Video Point of Impact System (VPIS), also known as dash cams, events/incident/accident data recording devices.

CCTV prevents and detects crime, reduces the fear of crime, enhances the health and safety of drivers & passengers and assists enforcement agencies to investigate incidents of alleged crime and civil offences. Any images and audio recording should be used for the above purposes only.

### Safety Requirements and Installation

The equipment fitted must comply with legislation including the Road Vehicles (Construction and Use) Regulations 1986. The equipment must be constructed and installed in such a way as to present no danger to passengers or the driver at any time. The CCTV equipment must not interfere with any other system within the vehicle e.g. radio, safety controls, navigation, satellite etc.

All equipment must meet all requirements as regards safety, technical acceptability and operational/data integrity.

All equipment must be designed, constructed and installed in such a way and in such materials as to present no danger to passengers or driver, including impact with the equipment in the event of a collision or danger from the electrical integrity being breached through vandalism, misuse, or wear and tear.

The installed CCTV system must not weaken the structure or any component part of the vehicle or interfere with the integrity of the manufacturer's original equipment.

All equipment must be installed in such a manner so as not to increase the risk of injury and/or discomfort to the driver and/or passengers. For example, temporary fixing methods such as suction cups will not be permitted, or lighting, such as infra-red, which emits at such a level that may cause distraction or nuisance to the driver and/or passengers. All equipment must be protected from the elements, secure from tampering and located such as to have the minimum intrusion into any passenger or driver area or impact on the luggage carrying capacity of the vehicle.

It is contrary to the Motor Vehicle (Construction and Use) Regulations, 1986, for equipment to obscure the view of the road through the windscreen. Equipment must not obscure or interfere with the operation of any of the vehicle's standard and/or mandatory equipment, i.e. not mounted on or adjacent to air bags/air curtains or within proximity of other supplementary safety systems, such as autonomous braking systems, which may cause degradation in performance or functionality of such safety systems.

All wiring must be fused as set out in the manufacture's technical specification and be appropriately routed.

If more than one camera is being installed their location within the vehicle must be specific for purpose i.e. to provide a safer environment for the benefit of the Hackney

Carriage/Private Hire Vehicle driver and passengers.

All equipment must be checked regularly and maintained to operational standards, including any repairs after damage.

All system components requiring calibration in situ should be easily accessible. The CCTV equipment should be e-marked or CE marked and be confirmed by the equipment manufacturer as being suitable for use in motor vehicles. The equipment shall be checked for compliance on a regular basis and maintained. These checks should include the quality of image and sound, time and date etc. Any CCTV device installed within the vehicle must be specific for purpose i.e. to provide a safer environment for the benefit of the hackney carriage vehicle/private hire vehicle driver and passengers. Viewing screens to see captured images are not permitted within the vehicle and all wiring must be fitted in accordance with the manufacturer's specifications.

#### Activation, Recording & Accessibility

Activation of the CCTV equipment can be made in a number of ways e.g. panic buttons, door switches time delay or, in the case of an incident/event recorder, predetermined G-Force parameters set on one or more axis (i.e. braking, acceleration, lateral forces) etc. At no time should the information captured on CCTV be accessible other than by approved encryption software which meets or is higher than the current Federal Information Processing Standard (FIPS) 140-2 standard or equivalent. In addition, the system should have access codes to enhance security.

N.B. Audio recording of conversations is not permitted and any facility to use audio must be disabled.

#### Image Security

Images captured must remain secure at all times. The captured images must be protected using approved encryption software which is designed to guard against the compromise of the stored data, for example, in the event of the vehicle or equipment being stolen. All SD cards must be encrypted to the camera device. All images may only be reviewed via a secure network, i.e. images should not be available to view via an MP3/MP4 player or equivalent.

The Information Commissioner's Office has published guidance on how to keep personal data secure (including personal data contained in CCTV images), on their website.

#### Storage of Images

CCTV images must be stored either within its own hard drive or where a service provider is providing facilities, transferred in real time using fully secured and appropriately encrypted GPRS (GSM telephone) signaling to a secure server within the service provider's monitoring centre.

Storing images and sound outside the vehicle is not allowed via any type of portable media device (e.g. CD's or memory sticks etc).

Regardless of which system is used to store CCTV data and sound, it should be stored for a maximum time of 31 days only. All systems should have an automatic overwriting function with a turnaround time of 31 days.

If the data being removed from the CCTV system is undertaken by a service provider, a contract must be in place and cover matters such as security arrangements, keeping/deleting data, access request and arrangements to end the contract. A copy of the contract may be requested by the Taxi Licensing Office at any time.

Data may be retained for longer periods in exceptional circumstances, e.g. insurance claims, criminal investigations etc. However, once a relevant case is concluded all data must be deleted.

Where applicable, these provisions shall also apply to audio recordings.

#### Information Commissioners Officer (ICO)

The ICO is the office responsible for regulating matters relating to CCTV. Responsibility for informing the ICO applies to a specified company, organisation or individual vehicle owner (data controller). The reason for this is that information captured on CCTV is regarded as personal data.

The ICO defines a 'data controller' as the individual or organisation which has ultimate responsibility for how personal data is collected and processed. The law defines a "data controller" as the individual or organisation which has ultimate responsibility for how personal data is collected and processed. For the purpose of the installation and operation of in-vehicle CCTV, the "data controller" is the company, organisation or individual which has decided to have a CCTV system installed and operating within the vehicle. The data controller is ultimately responsible for how the images are stored and used and determines in what circumstances the images should be disclosed.

The data controller is required to register and renew yearly with the ICO if they have a CCTV system installed into a vehicle and also where a CCTV system is installed in order to record incidents *outside* the vehicle (e.g. a Video Point of Impact System (VPIS), known as a dashcam or similar).

It is a legal requirement for organisations and businesses that process personal information to pay a data protection fee to the ICO every year and it is a criminal offence if you don't. The ICO publishes an online register of the organisations and businesses that have paid the fee.

You can find out more about the process by reading the ICO guide to the data protection fee. The level of fee you have to pay varies according to the turnover of your business and the number of employees you have.

Documentary proof is required showing that this has occurred and must be produced to the Taxi Licensing Office within 30 days of the initial installation and on annual renewal. Drivers need to register and pay a fee with the ICO if any CCTV device is fitted, as the driver will be the controller of the personal data collected.

### Using recorded CCTV images

The data controller is responsible for complying with all relevant data protection legislation, as well as being legally responsible for the use of all images including any breaches of privacy and data protection legislation.

Any images and/or audio recordings should only be used for the purposes described earlier in these guidelines. Requests to view captured images may be submitted to the data controller by the Police or other statutory law enforcement agencies; the Taxi Licensing Office; insurance companies/brokers/loss adjusters; or exceptionally other appropriate bodies. The data controller is responsible for responding to these requests in accordance with the law. Police or other law enforcement agencies should produce a standard template request form, setting out the reasons why the disclosure is required. Alternatively, a signed statement may be accepted.

All requests should only be accepted where they are in writing specifying the reasons why disclosure is required.

Under the data protection legislation, members of the public may also make a request for the disclosure of images, but only where they have been the subject of a recording. This is known as a 'Subject Access request'. Such requests must only be accepted where they are in writing and include sufficient proof of identity (which may include a photograph to confirm they are in fact the person in the recording). Data Controllers are no longer entitled to charge a fee for a subject access request and must process the request for free. More guidance on handling Subject Access requests can be found in the ICO's <https://ico.org.uk/media/2259722/subject-access-code-of-practice.pdf> , which is available on their website.

Where a service provider is used for the remote storage and/or management of CCTV data they will act as a 'data processor'. A data processor, in relation to personal data, means any person (other than an employee of the data controller) who processes data on behalf of the data controller, in response to specific instructions. The data controller retains full responsibility for the actions of the data processor.

There must be a formal written contract between the data controller and data processor (service provider). The contract must contain provisions covering security arrangements, retention/deletion instructions, access requests and termination arrangements.

Documentary evidence of the contractual arrangements may be required to be presented to a Taxi Licensing Office official at any time during the term of the Hackney Carriage/Private Hire Vehicle licence.

## **INSURANCE**

You will be required to supply either the full policy or covernote when you first license, renew, change, transfer a vehicle or have a 'held plate' returned to you. However, at the discretion of the Taxi Licensing Office (TLO), where the insurance is unavailable the plate can be held and licence suspended by the TLO until proof of insurance is provided. The insurance document must specify the registration number of the vehicle and who is insured to drive it. If the insurance is a fleet policy, the insurance schedule document listing the vehicle's registration number must also be supplied and supplied at application/licensing for each vehicle covered by the policy. The TLO can require proof of insurance at any time during the term of the licence. See further information below. If your drivers are named on your application form then the certificate of insurance (or cover note) must specify these named drivers or "any driver". If there are named drivers on your application form and the certificate of insurance specifies a different named driver then either that driver must be taken off the certificate or added to the application form.

### **Hackney Carriage Vehicle Insurance**

Hackney carriage proprietors are required to supply proof of insurance to the TLO of continuous insurance cover by bringing in either a further cover note or full policy. We will accept a cover note or policy emailed directly from the insurance company/broker to the TLO. It should be noted that only a person currently holding a hackney carriage driver's licence can be insured to drive a hackney carriage. The only exception to this is where cover is obtained for a person to take their hackney carriage driving test. Only Coventry licensed hackney carriage drivers names can be shown on the Certificate of Insurance or Cover Note as named drivers. Hackney carriages need to be insured for "public hire and reward" and "for use for the carriage of passengers for hire and reward" or "Private & Public Hire Purposes". (This insurance may also mention "Private Hire" or "pre-bookings" or "prior appointment" as hackney carriage vehicles can undertake these journeys, however it must not say "private hire licence"). It is up to you, the proprietor, to decide if you wish to have this cover as either fully comprehensive or any of the third party options.

### **Private Hire Vehicle Insurance**

Private hire proprietors are in addition to supplying initial proof of insurance to the TLO are required to supply proof of insurance to the operator, who provides bookings to the vehicle, of continuous insurance cover by showing the operator either a further cover note or full policy.

It should be noted that only a person holding a current private hire driver's licence can be insured to drive a private hire vehicle. If you are aggrieved by a decision of the City Council to suspend, revoke or refuse to renew a private hire vehicle licence, under S.60 Local Government (Miscellaneous Provisions) Act 1976, you have the right to appeal to Coventry Magistrates' Court within 21 days.

Note - there is no right of appeal against a decision of the City Council to suspend, under S.68 Local Government (Miscellaneous Provisions) Act 1976, a private hire vehicle licence.

If you are aggrieved by a condition specified in a private hire vehicle licence you have the right to appeal, under S.48 Local Government (Miscellaneous Provisions) Act 1976, to Coventry Magistrates' Court within 21 days.

You must pay the fee at the same time as lodging the appeal for it to be accepted as a valid appeal.

### **Continuing to work a vehicle as a hackney carriage or private hire**

Section 77 of the Local Government (Miscellaneous Provisions) Act 1976 provides that:

"If any requirement, refusal or other decision of a district council against which a right of appeal is conferred by this Act -

- a) involves the execution of any work or the taking of any action; or
- b) makes it unlawful for any person to carry on a business which he was lawfully carrying on up to the time of the requirement, refusal or decision;

then, until the time for appealing has expired (21 days), or, when an appeal is lodged, until the appeal is disposed of or withdrawn or fails for want of prosecution -

- i) no proceedings shall be taken in respect of any failure to execute the work or take the action; and
- ii) that person may carry on that business".

**WARNING.** If you work or allow the vehicle to work as a hackney carriage/private hire after the time for appealing has expired (21 days) and have not registered an appeal within that time, you will be committing an offence.

### **Right of appeal against a refusal of a MOT test certificate**

If you do not agree with the items listed on a 'Refusal of an MOT Test Certificate' VT30, you may appeal to the Driver Vehicle Services Agency (DVSA), the agency that controls the MOT test. Please refer to the information on the back of the VT30 document issue at the end of the MOT test.
