Service Overview and Benefits

The ICT & Digital Systems Team at Coventry City Council is an accredited Arbor Support unit, this means you can be confident that the support you receive for Arbor is of high quality which will enable you to get answers to your Arbor support questions. Only support units which provide high quality support can become accredited support units.

The team has been supporting school management information products for well over 20 years, this means we have a substantial knowledge of the management information requirements that schools have both from a system and a statutory point of view. This means we can fully appreciate the pressures that those working in schools face daily, and we know that it is essential that you receive a prompt an efficient response to your Arbor MIS queries. We provide our support services via telephone, remote access, face to face through training sessions, workshops, and conferences, through videos posted to our YouTube channel, online training sessions and guidance documentation.

Coventry CC take an active part in the Arbor community, we use this community to share good practice, learn from the experiences of others and to keep our skills up to date, this enables us to ensure that we are constantly improving the service we provide to you.

This service is complimented by our Training and Events service which provides full training and support for these products.

- School Admissions
- School Census
- School Workforce Census
- End of Academic Year / Start of Academic Year
- End of Key Stage
- Exam Seasons (management, entries, and results analysis)
- Catholic Schools Census *

Liaison with Third Party Software Provider

Where we identify that a problem exists within the Arbor MIS that requires further investigation to resolve, we will liaise with the software vendor on your behalf.

Integrations into other products

This service supports the integration of Arbor data into third party products as purchased by the school. Examples of these integrations are SchoolComms, ParentPay, Teachers2Parents, CPOMS, Inventory etc.

^{*}The Catholic School Census is supported by the Catholic Education Service, and they will provide guidance and advice, however, we will provide support in relation to Arbor, as necessary.

We will work with yourselves and the third-party supplier to support, setup and configure the data transfer between the systems.

We will only support the third-party integration where the third-party support provider provides an automated tool/API to enable the data transfer between the two systems. Our support does not extend to supporting the third-party system unless otherwise stated.

How to access the service

You can access this service to raise incidents or service requests via the ICT & Digital User Support Team (previously known as Service Desk).

Getting the Best out of Arbor

Your Arbor System is one of the most complex and expensive systems within your school not to mention it contains the data that is the very life blood of your school. This means getting the best out of it is essential to improve the outcomes of your school along with getting the most out of your investment. Improving the use of Arbor may also enable your school to save money by reducing the need for third party products or through efficiency savings.

As part of the Arbor MIS Support service, we can offer a free of charge visit to school to discuss your individual challenges and offer product demonstrations. As part of this visit, we will discuss with you the areas of Arbor which you are underutilising and work with you to put in place an improvement plan.

Please contact us to arrange a free meeting.

We also offer training, workshops, webinars, and seminars to help you get the most of out of the service.

Training, Seminars, Webinars and Workshops

Training is provided in various areas of Arbor. Please see the ICT Training and Events service description for further details.

Exclusions

The following exclusions apply:

| Area | Item Excluded |
|--------------|---|
| Data Restore | We will work with Arbor where necessary to restore data following a disaster – however, Arbor Education is responsible for the data backup of your system and its data. Re-entry of lost is available at an additional charge. |
| Data Returns | Catholic School Census – Support is provided by the Catholic Education Service. We will support Arbor queries which may arise as you complete your return. |

| Area | Item Excluded |
|------------------------------------|--|
| DfE Services | Support for the DfE systems such as s2s, Get Information about pupils, Collect, Get information about schools etc is provided by the DfE. |
| Hardware & Operating Systems | Support for device software (e.g. operating systems & productivity software) and hardware issues (e.g. workstation, server or printers); it may be covered by another service. |

Requirements and Assumptions

To provide this service, we make the following assumptions.

- Schools are licenced for the supported products.
- Remote access will be granted by school where necessary to allow ICT & Digital staff to support the products.
- Supported schools allow ICT & Digital Staff to log in to their Arbor service to provide support.
- Staff have been adequately trained in the use of products.
