1. As a month by month breakdown, how many children and young people have entered the care system in your area over the past five years?

The number of children (under 18 years of age at point of entering care) entering the care system month by month from January 2020 to November 2024 were as follows (see Table 1).

Note that a count is made for each discrete period of care. i.e. a child having two separate care periods in a calendar year is counted twice.

Due to the low numbers of children, we are unable to provide the data of children entering care with disability on a month-by-month basis. This has been done as the Council considers that this information meets the definition for personal data set out in Section 3(2) and 3(3) of the Data Protection Act 2018 ("DPA") as:

(2) "personal data means any information relating to an identified or identifiable living individual (subject to subsection (14)(c))"

(3) "Identifiable living individual" means a living individual who can be identified, directly or indirectly, in particular by reference to –

(a) an identifier such as a name, an identification number, location data or an online identifier, or

(b) one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of the individual."

The Council thus considers that the requested information is caught by the exemption to disclosure contained in Section 40 (2) of the FOI Act and the related first condition of Section 40 (3).

To assist, we can provide annual figures (see Table 2).

For 2024, the time span represents January to November inclusive.

Table 2 – Annual figures for children with a disability entering care

Year	Number of children with disability entering care
2020	18
2021	18
2022	15
2023	15
2024	16

3. How many foster carers do you currently have in your area?

As at 31 March 2024 there were 288 approved fostering households and 466 foster carers.

4. How many foster carers do you currently have in your area who are able to provide the types of foster care listed below. Please enter the total number of carers available, including those currently fostering children and those not.

We hold the information which you have asked for, but we have estimated that the cost of meeting your request would exceed the cost limit of £450 specified in the Freedom of Information and Data Protection (Appropriate Limit and Fees Regulations 2004). This represents the estimated cost of one person spending 18 hours or more, in determining whether the information is held, locating, retrieving and extracting it.

Information is recorded for annual reporting to Ofsted at a summarised level for a sub-set of the categories requested (Table 3). For those categories where figures are not provided, the information is held at household level, and collating this information would require examination of individual household records exceeding 18 hours.

This part of your request has been refused under section 12(2) of the Act. However, in order to fulfil our obligations under Section 16 of the FOI Act to advise and assist you, we have provided information that we can, in Table 3.
