

Domestic Servitude

In 2024, cases of domestic servitude made up 4% of all exploitation concerns for adults.

Keep an eye out for the following indicators:

- Does the person appear to be working more than normal hours or are they on-call 24 hours a day?
- Are the person's communications restricted by their employer?
- Does the person eat alone? Are they given leftovers?
- Is the person unallowed to leave the house unless they are accompanied, or they are completing household chores?
- Does the person have little interaction with other household members?
- Is the person's presentation different to the rest of the household e.g. poorer-quality or less-clean clothing?
- Does the person have makeshift or inappropriate sleeping arrangements?
- Does the person have limited access to personal living space, food, water and medical care?
- Has the person been forced, manipulated, or deceived into marrying someone in the household?
