Policy AC4: Active Transport Provision including Walking, Cycling and Micro Mobility

It is welcomed that the wording in Policy AC4 has been strengthened to better reflect the higher priority which the Council is placing on promoting walking and cycling as well as reference to development proposals coming forward in accordance with the emerging Local Cycling and Walking Infrastructure Plan (LCWIP).

The University supports the further detail to cycle parking standards to include other forms of parking for cargo bikes and children's bikes as well as complimentary facilities such as showers and changing facilities is welcomed.

Active travel uptake over the lifetime of this plan period should be monitored through studying existing and future local travel patterns and community engagement. Through positive placemaking principles, communities should have access to day-to-day services and amenities within a 20-minute active travel journey, placing emphasis on reduced car use and low traffic neighbourhoods.

Policy AC5: Bus, Demand Response Transit and Rapid Transit

The University welcomes the inclusion of Very Light Rail as part of Policy AC5 as well as the need for demand responsive transit to offer improved accessibility. The use of public transport as part of an integrated shared mobility service to allow a seamless and cohesive system of travel for all types of users is promoted within Policy AC5 and through the development of Mobility Hubs. This is supported by the University and aligns with the recently adopted University Masterplan SPD.
