(2) Sound	Yes	<input type="text"/>	No	<input type="text" value="X"/>

Para 223 of the NPPF requires that planning policies should safeguard existing, planned and potential sites for the bulk transport, handling and processing of minerals; the manufacture of concrete and concrete products; and the handling, processing and distribution of substitute, recycled and secondary aggregate material.

There is currently no such policy in the Plan.

6. Please set out the modification(s) you consider necessary to make the Local Plan Review legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the Duty to Co-operate is incapable of modification at examination). You will need to say why each modification will make the Local Plan Review legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

We would propose the following policy is added:

EM **

Infrastructure that supports the supply of minerals is safeguarded against development that would unnecessarily sterilise the infrastructure or prejudice or its current or future use, throughput and/or capacity.

A redevelopment of all or part of a safeguarded site to non-mineral use will only be supported if:

- a. the infrastructure is no longer needed; or
- b. the capacity of the infrastructure can be provided elsewhere. In such instances, alternative capacity should:
 - i. must be at least equal to the proposed loss and should must be delivered in advance of redevelopment of all or part of the existing site; and
 - ii. be appropriately and sustainably located; and
 - iii. conform to the relevant environmental and community protection policies in this Plan;

or

- c. the proposed development is part of a wider programme of reinvestment in the delivery of enhanced capacity for minerals supply.

Where a non-mineral development is within proximity to a safeguarded site the 'agent of change principle' will be applied and any mitigation required must be completed by the applicant prior to occupation of the non mineral development for any purpose.
