

## Approach Education

Outreach in Schools

### Who we are

As an ex-Headteacher and qualified SENCo with over 27 years' experience in education, I know first hand the difficulties schools are facing: lack of funding, shortage of specialist settings, and the growing number of children with complex SEND needs in mainstream education. At Approach Education, we're here to help.

I now work as a Specialist Education Consultant across Coventry, Warwickshire, West and East Midlands, offering:  Strategic SEND consultancy  Tailored advice and guidance  Bespoke 1:1 courses built around the individual needs of the child.

Full pastoral support offered with access to our own Advisory Professionals Board. All pastoral aims are targeted and built within the bespoke course offer.

### Student Outcomes

Understanding and overcoming barriers to learning, building resilience and well being to thrive in education for positive futures!

**Testimonial:** Thank you Emma I struggled in 2 mainstream secondary schools from year 8 onwards. The noise smells deadlines social situations friends teachers uniform tiredness overwhelm homework. The list goes on. I am autistic and live as a boy but born a girl. I don't fit in. I know I am different. My mum tried to help after school when I was ready to explode or crash. My attendance dropped off. I couldn't do it anymore. You have to get your GCSEs my dad and teachers would say otherwise you have no future. My mum knew Emma worked in a special education school and went to see her for advice. Then..... She explained the process the law how my EHCP would be vital in getting me the right help in the right school. She came and met me at home. She got it !!!!! Like no one else had. How did she know ????? She helped mum apply for a special setting and knew the right way to approach it. She came to a school visit with me we talked to the head teacher. I thought it would be for kids that weren't ever gonna get GCSEs. No !! It was a very small kind welcoming school for kids like me!. Emma helped mum do paperwork and came to the deciding meeting with the council. I got the place! My mum said this was unbelievable and I know go to Millhouse school in Meriden. Emma helped me get here and spoke to the school about my needs. Every child like me needs an Emma. Thankyou Emma I have my future back.

**Testimonial 2:** Ex Pupil When I first met Emma I was in a bad place. I hadn't been in mainstream education for a few years due to the intense bullying I had endured. At that point, I hardly left my bedroom, and my confidence was at an all time low. When my mum told me that some people were coming over to talk to me, I didn't expect much to happen, but I instantly knew this was different. Emma and Sarah were so friendly from the beginning and made me feel so at ease. I knew after meeting them my life was about to change. I then started lessons with Stepping Stones, first at home, then at the Tamworth school, I have to thank the whole team that helped me: Emma R, Dave, Rav, Jonas, Kara, Simon, James and the many others that were involved in the journey. The staff Emma employs show just how much she cares about her students as they were all passionate and caring. Stepping Stones allowed me to gain much more confidence and even helped me to make friends (I hadn't spoken to anyone my age in over a year) This newly found confidence allowed me to study for my GCSEs online, and later with a maths/science tutor in my home. I passed my exams which meant I could then do my A levels. Currently I am studying Psychology at Coventry University which I know wouldn't be possible without Emma's help. Firstly because she helped me gain the qualifications needed but also because her enthusiasm and compassion has inspired me to help others who are in similar situations to me.
