About us

Radio + is an Ofcom-licensed community radio station based in the City of Coventry.

We broadcast across Coventry on 101.5 FM, DAB, online, via the Get Me Radio app and on smart speakers. Our target audience is 15–35 year olds.

We play the very latest new music and highlight the amazing community work, projects and events that take place across our city.

Radio + is committed to supporting young local people by providing community-based training and practical work experience, alongside opportunities to develop broadcast, podcast, digital, social media and employability skills.

Radio + Alternative Provision

Radio + provides unique broadcasting and digital media training placements for young people aged 10+ across Coventry and Warwickshire.

Our AP programme is designed to help young people to grow in confidence and develop the resilience and self-belief they need to succeed. They will also develop exciting range of new digital and practical skills.

- Gain work experience in a live radio station environment
- Develop new digital skills in radio broadcasting and podcasting
- Students get to be a 'DJ ON THE RADIO and DJ LIKE A CLUB JOCK!'
- Create content and contribute to our 'On Air' radio programmes
- Learn digital content creation skills for websites and social media
- Create a portfolio of work showcasing new digital skills
- Develop core functional and employability skills
- Learn how to interview and present to a professional standard
- Increase confidence, self-esteem, boost mental health and wellbeing
- Develop personalized pathways allowing a student plan for their future either via reintegration to education or further education.
- Receive support and mentoring in job searching, including CV development and interview techniques
- Access volunteering opportunities to gain further valuable work experience

Why work with Radio + ?

Our approach is simple, we are not a school. We work as YOUR PARTNER. Our aim is harness the power of music and digital media to inspire and encourage your students to re-engage back into mainstream education, or to help them find the right pathway forward.

What we offer is a non-curriculum, extended work experience placement, tailored to each individual student.

We take young people on a journey of self-discovery, helping them to recognise their own identity, self-worth and potential. We encourage students to understand that they are in control of their lives, and that the choices they make will shape their future.

Our mission is to build confidence, belief and resilience, equipping students with the skills they need to re-engage with education, employment and life.

We work closely with each young person to understand their needs and challenges, adapting individual learning plans to deliver the best possible experience and outcomes.

The best bit? They get to do all this working in a real radio studio!
