Who we are

We have 23 years' worth of experience working within education and in particular 14–19 year olds. We have been working with disengaged and disapplied learners from the education system and feel that this is where our skills lie. We are very good at networking and bringing in the right people to carry out the appropriate high-quality support needed by learners. We have over the years built up an excellent professional reputation amongst a range of schools across the Midlands.

What we offer

Work N Learn provides vocational placements and alternative education opportunities for Coventry Alternative Provision learners, helping young people develop employability skills, confidence and positive post-16 destinations. Learners are supported through tailored work experience placements with a strong focus on engagement, careers education and real-world learning.

Key features of the offer include:

- Vocational work placements for KS4 and KS5 learners.
- 1:1 supported placements, with students typically attending up to two days per week.
- Opportunities to gain AQA Unit Awards alongside workplace experience.
- Development of employability, career planning and workplace skills.
- Access to additional support including mentoring, coaching, intervention programmes and careers information, advice and guidance (IAG) where required.
- A personalised approach designed to engage young people who may not thrive in mainstream education settings and support successful progression into education, employment or training.

Work N Learn has extensive experience working with disengaged learners and offers flexible, individualised programmes that provide meaningful workplace opportunities while supporting personal development and future career aspirations.
