Who we are

Fast Forward Vocational Training is a national alternative education provider with over 15 years' experience supporting young people who may not thrive in mainstream education. In partnership with TeamSport Indoor Karting, we deliver practical vocational and academic programmes in professional workshop environments.

What we offer

Our provision supports disengaged or hard-to-reach learners, young people with SEND or SEMH needs, those on reduced timetables, and learners who respond more positively to practical education. Programmes combine vocational theory, workshop activity, Functional Skills and career development in small, structured groups, with individualised support and reasonable adjustments. Delivery is available for one, two or three days per week, subject to suitability and capacity.

- Level 1 Award in Motor Vehicle Studies
- Level 2 Award in Career Progression (STEM)
- Introduction to Motor Vehicle Studies – an 8–12-week short programme
- Back on Track Reintegration Programme, including nine AQA Unit Awards
- Post-16 vocational packages for eligible learners with EHCPs as part of a wider educational package

Student Outcomes

Learners build confidence, resilience, independence and practical industry skills while improving attendance, engagement, teamwork, communication and problem-solving. The programme supports progression into further education, training, apprenticeships or employment, and reintegration into mainstream education where appropriate.

Our impact: 74% of learners achieved recognised qualifications, with a reported 59% improvement in attendance. Our provision also supports Gatsby Benchmarks 3, 5 and 6.
