

Who we are

Viniris Ltd is a specialist Alternative Provision provider delivering bespoke educational, therapeutic and personal development programmes for children and young people with SEND, SEMH, behavioural, emotional and complex needs. We work collaboratively with schools, local authorities, families and partner agencies to provide flexible interventions that improve engagement, attendance, emotional wellbeing and educational outcomes. Our multidisciplinary workforce includes qualified teachers, specialist tutors, SEND practitioners, behaviour support staff, mentors, therapists, wellbeing coaches, youth workers and intervention specialists who are carefully matched to each learner's needs. Viniris is also an experienced health and social care provider with significant expertise in supporting children and young people with complex needs through integrated education, care and support packages.

Our team has extensive experience providing support staff to work alongside tutors, schools and educational providers, ensuring young people are able to engage safely and effectively in learning environments. This includes the successful delivery of 1:1, 2:1 and 3:1 support packages for children and young people presenting with complex and challenging behaviours, including those at risk of exclusion, placement breakdown, school refusal, disengagement from education and those requiring enhanced levels of supervision and support. Our approach combines education, care and behavioural support to create safe, consistent and person-centred programmes that enable young people to achieve positive outcomes whilst reducing risk, increasing engagement and promoting stability, independence and long-term success. Viniris understands the importance of building skilled, resilient and consistent teams around each young person and has experience coordinating multidisciplinary support packages tailored to individual needs, EHCP outcomes and educational objectives.
