Dear Sir/Madam

**Environmental Information Regulations 2004 (EIR)
Request ID: FOI836671914**

Thank you for your request for information relating to Proposed Conservation Areas.

You have requested the following information:

**I am seeking information relating to proposed Conservation Areas within your authority.
Please confirm whether your authority currently has any areas that are:**

- Under consideration for designation as a Conservation Area

The Authority actively reviews areas of the City for potential future CA designations, however no one specific area is currently identified for new consideration at this point.

- Subject to a Conservation Area appraisal (draft or ongoing)

Established Conservation Areas benefitting from an appraisal are available via the following link:
[https://www.coventry.gov.uk/heritage ecology trees/conservation areas/8](https://www.coventry.gov.uk/heritage%20ecology%20trees/conservation%20areas/8)

Those Conservation Areas without an appraisal are a committed piece of work for the authority to develop, as per adopted Local Plan policy HE1 part 3

- Planned for future designation or review

As above. The 2017 adopted Local Plan made commitment to establish two new Conservation Areas in the areas of Brownhill Green and Earlsdon, these commitments have been completed and Conservation Areas established.

If so, please provide the following details for each area:

- The name or location of the area

Not applicable.

- The current stage of the process (for example, initial review, draft appraisal, public consultation, or committee stage)

Not applicable.

- Any relevant reports, committee papers, or reference numbers

Not applicable.

- Key dates, where available

Not applicable.

If no such areas are currently being considered, please confirm this.

No new Conservation Area designations are currently being proposed

If available, I would also be grateful to receive any GIS datasets or mapping files showing the boundaries of proposed areas. I would prefer to receive the information electronically.

Mapping of Conservation Area boundaries is available via the authorities spatial planning map which can be accessed via the following link :
