COVENTRY CITY COUNCIL

STATEMENT OF REASONS

City of Coventry Static (Waiting, Loading, Stopping and Street Parking Places) Order 2026

Background

The consolidation of multiple existing static restriction Orders into a single new 'Parent' Order without any change of substance to the provisions on the highway or the conditions of use.

Effect

The traffic order consolidation procedure is an administrative process that brings all existing traffic order restrictions into a single new Order. All existing static traffic orders and amendment orders are revoked, and the provisions re-enacted without any change of substance into the new Order. Nothing changes on the ground.

Power to introduce the measures

The consolidation will be introduced under powers conferred by Section 21 of the Local Authorities' Traffic Orders (Procedure) (England and Wales) Regulations 1996. There is no formal objection process as there has already been a formal objection process undertaken for the introduction of the original measures.
