City Centre Cycleway Phase 1

PROPOSED INTRODUCTION OF ROAD HUMPS IN GREYFRIERS ROAD, QUEENS ROAD AND SHERIFFS ORCHARD

1. Notice is hereby given that the Council, proposes under Section 90 of the Highways Act 1980, to construct flat top road humps known as a "raised entry treatment" at the following locations on Greyfriars Road: -

(1) **Greyfriars Road** – at the entrance to Vicroft Court the road hump would extend into Queen Victoria Road for approximately 3.5 metres.

(2) **Queen Victoria Road** – at its junction with Greyfriars Road, the road hump would extend into Queen Victoria Road for approximately 3.5 metres.

(3) **Sheriffs Orchard** – at its junction with Greyfriars Road, the road hump would extend into Greyfriars Road for a distance of approximately 5 metres at its widest point and extend into Sheriffs Orchard for approximately 6 metres;

The road hump known as a "speed table" or "raised entry treatment" is an elevated section of the carriageway with a flat top, 100 millimetres higher at its highest point than the surrounding carriageway, extending across the whole width of the carriageway from kerb to kerb without a break, so that the flat top of the speed table or raised entry treatment and the adjoining footway form a continuous surface.

2. The proposed road humps are intended to improve safety by reducing traffic speeds and the potential for road accidents at the approaches to the cycle track.
